Subject: Freedom Industries Questions from CSB

Hello;

We understand an investigator from the Chemical Safety Board (CSB) has requested information about the EPA regulations with which Freedom Industries had to comply at the time of the spill. Please request that the investigator contact OEM (Larry Stanton or Dana Tulis cc'd on this message) so that we can arrange a conference call to discuss the specific needs. We're happy to make direct contact with the investigator but we thought we should work this with you first. Let us know if you have any questions. Thanks! Craig Matthiessen

R. Craig Matthiessen

OSWER/OEM/RPDD Director
